Introduction

As we enter the 3rd decade of serving our clients, we reflect on our history...

Communication

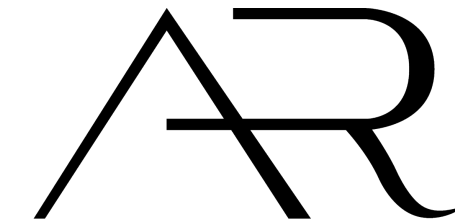

AR maintains constant communications with our partners.

Trust

AR understands that trust is the foundation of our relationships.

Commitment

To all of our friends, architects, interior designers, general contractors, landscape architects; We all share a common goal – serving your clients needs.

**ARCHITECTURAL

It is a privilege to be invited to join each new project, working with architects, designers, and general contractors, striving for one common goal, our client.

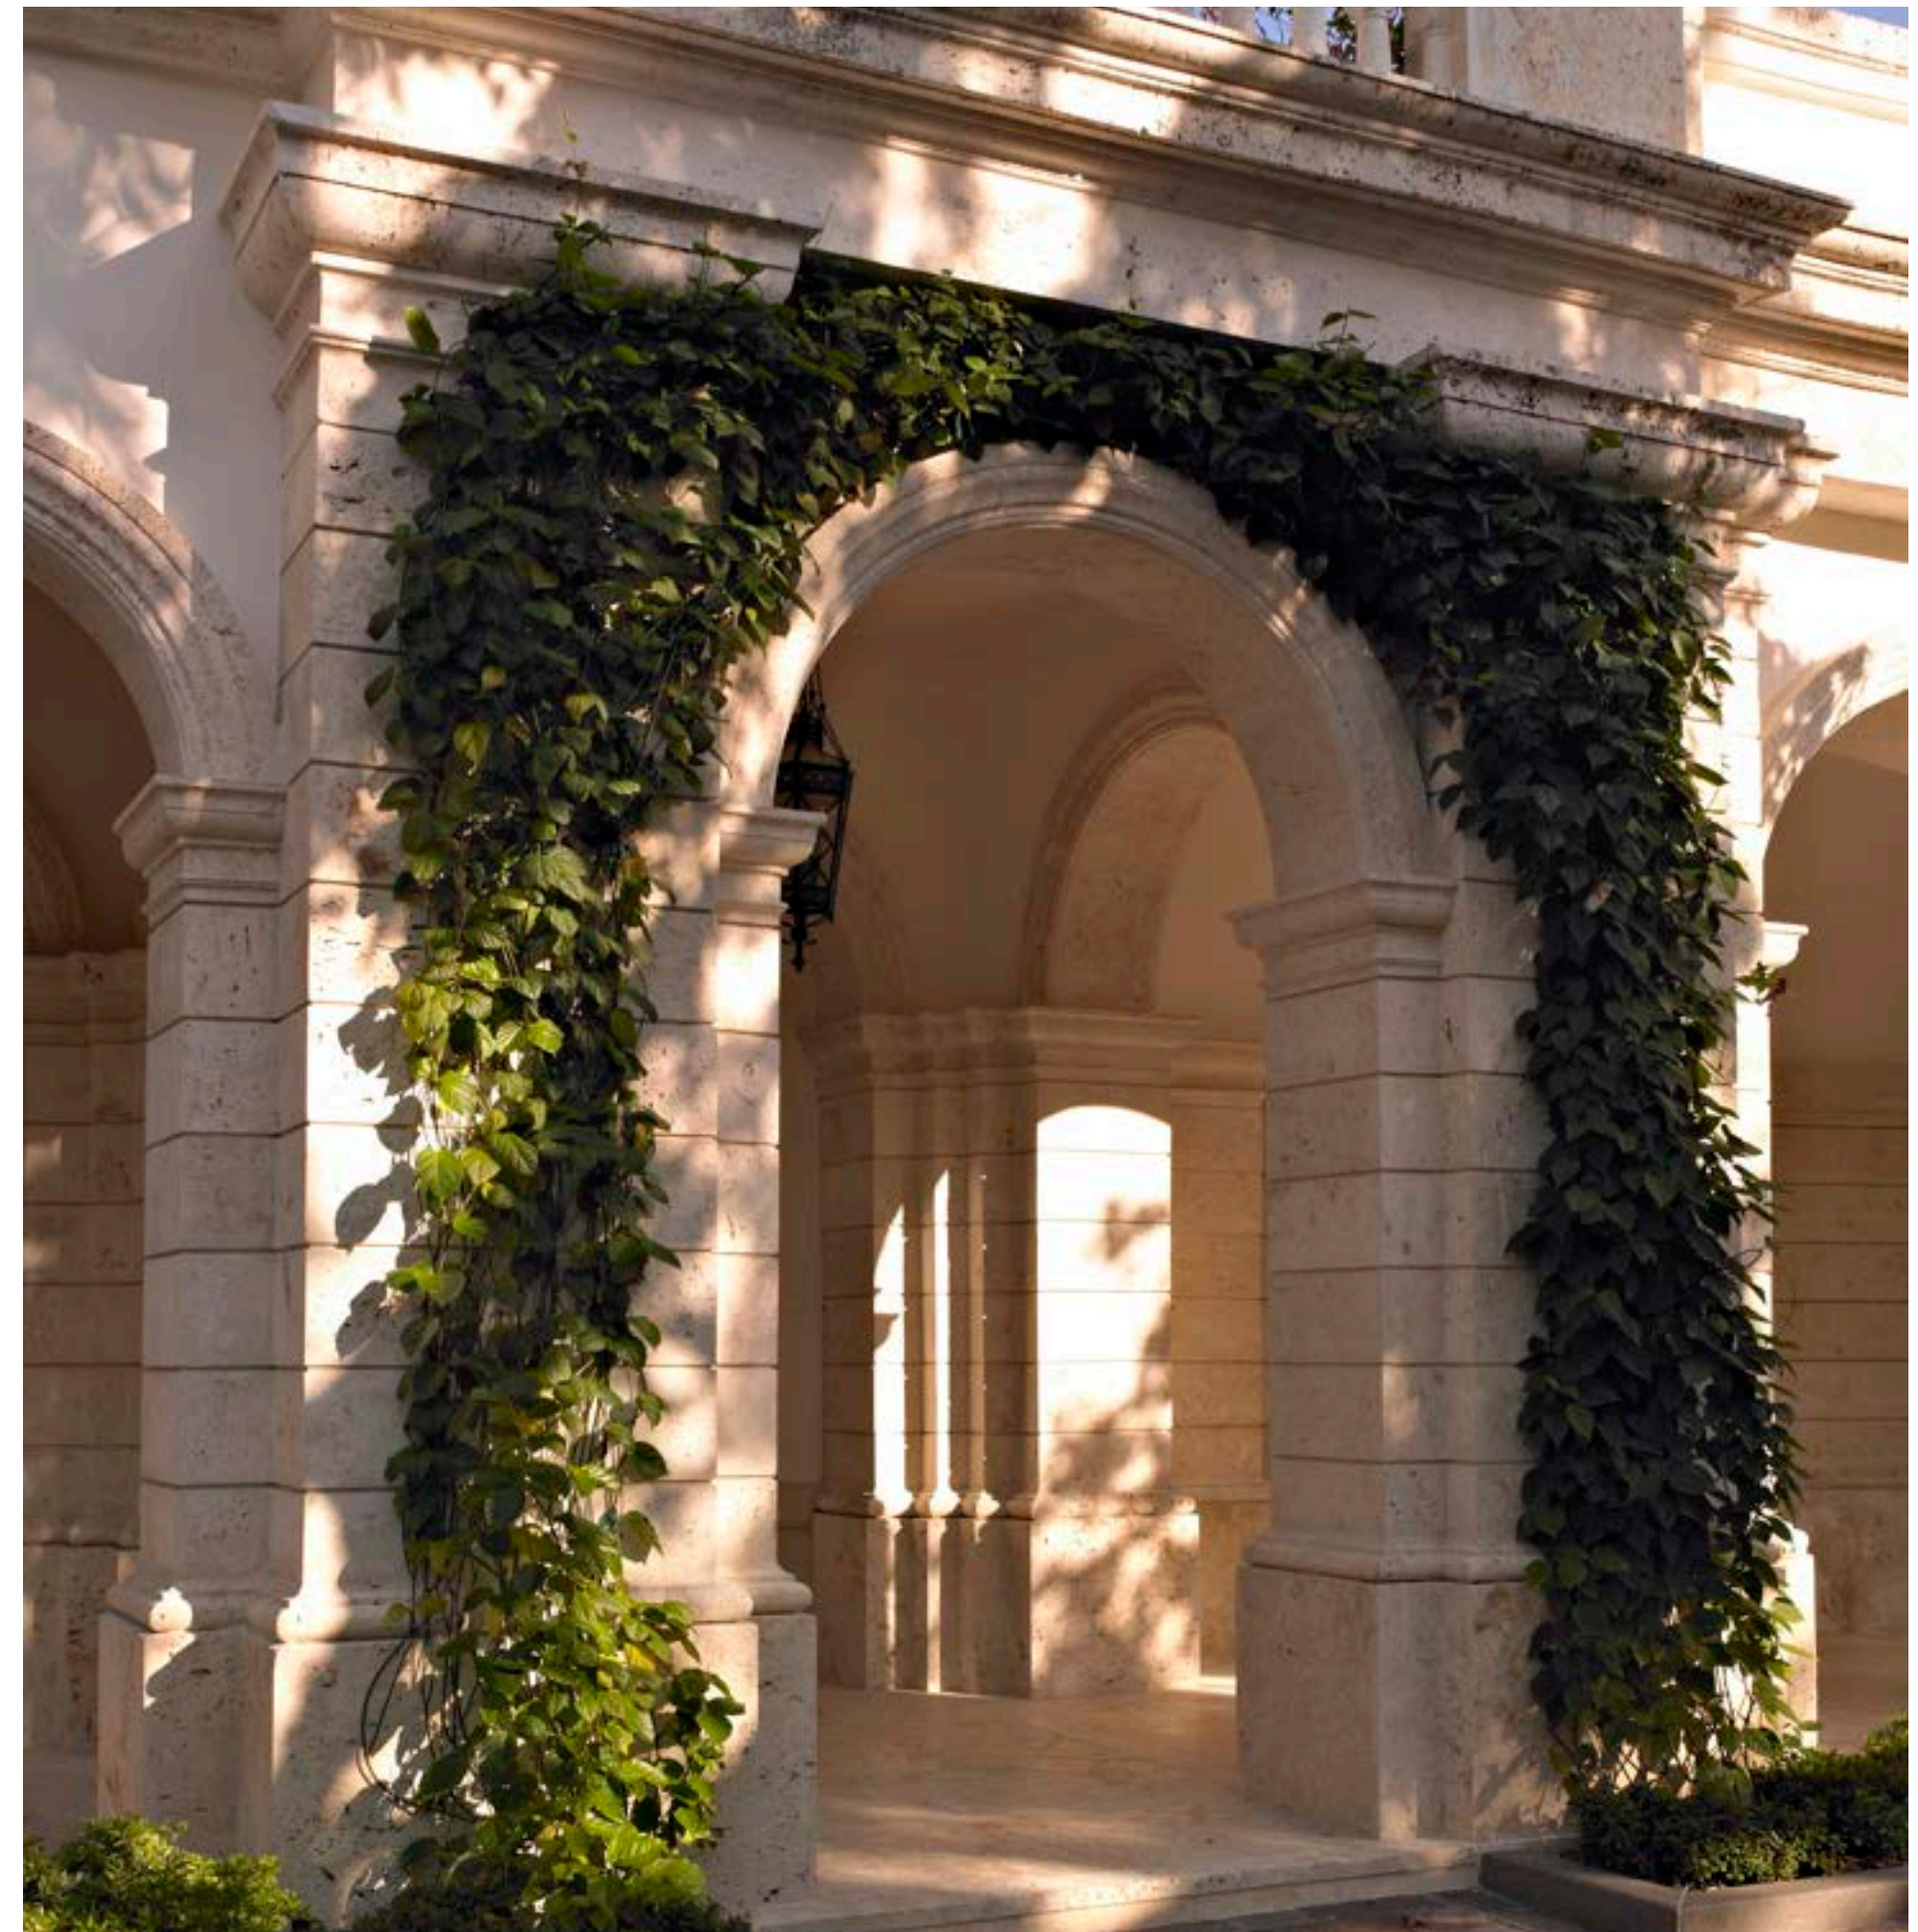

We are listeners.

We are always absorbing the many cross conversations that take place and transforming those into ideas that create and enhance the finished product, our clients new home.

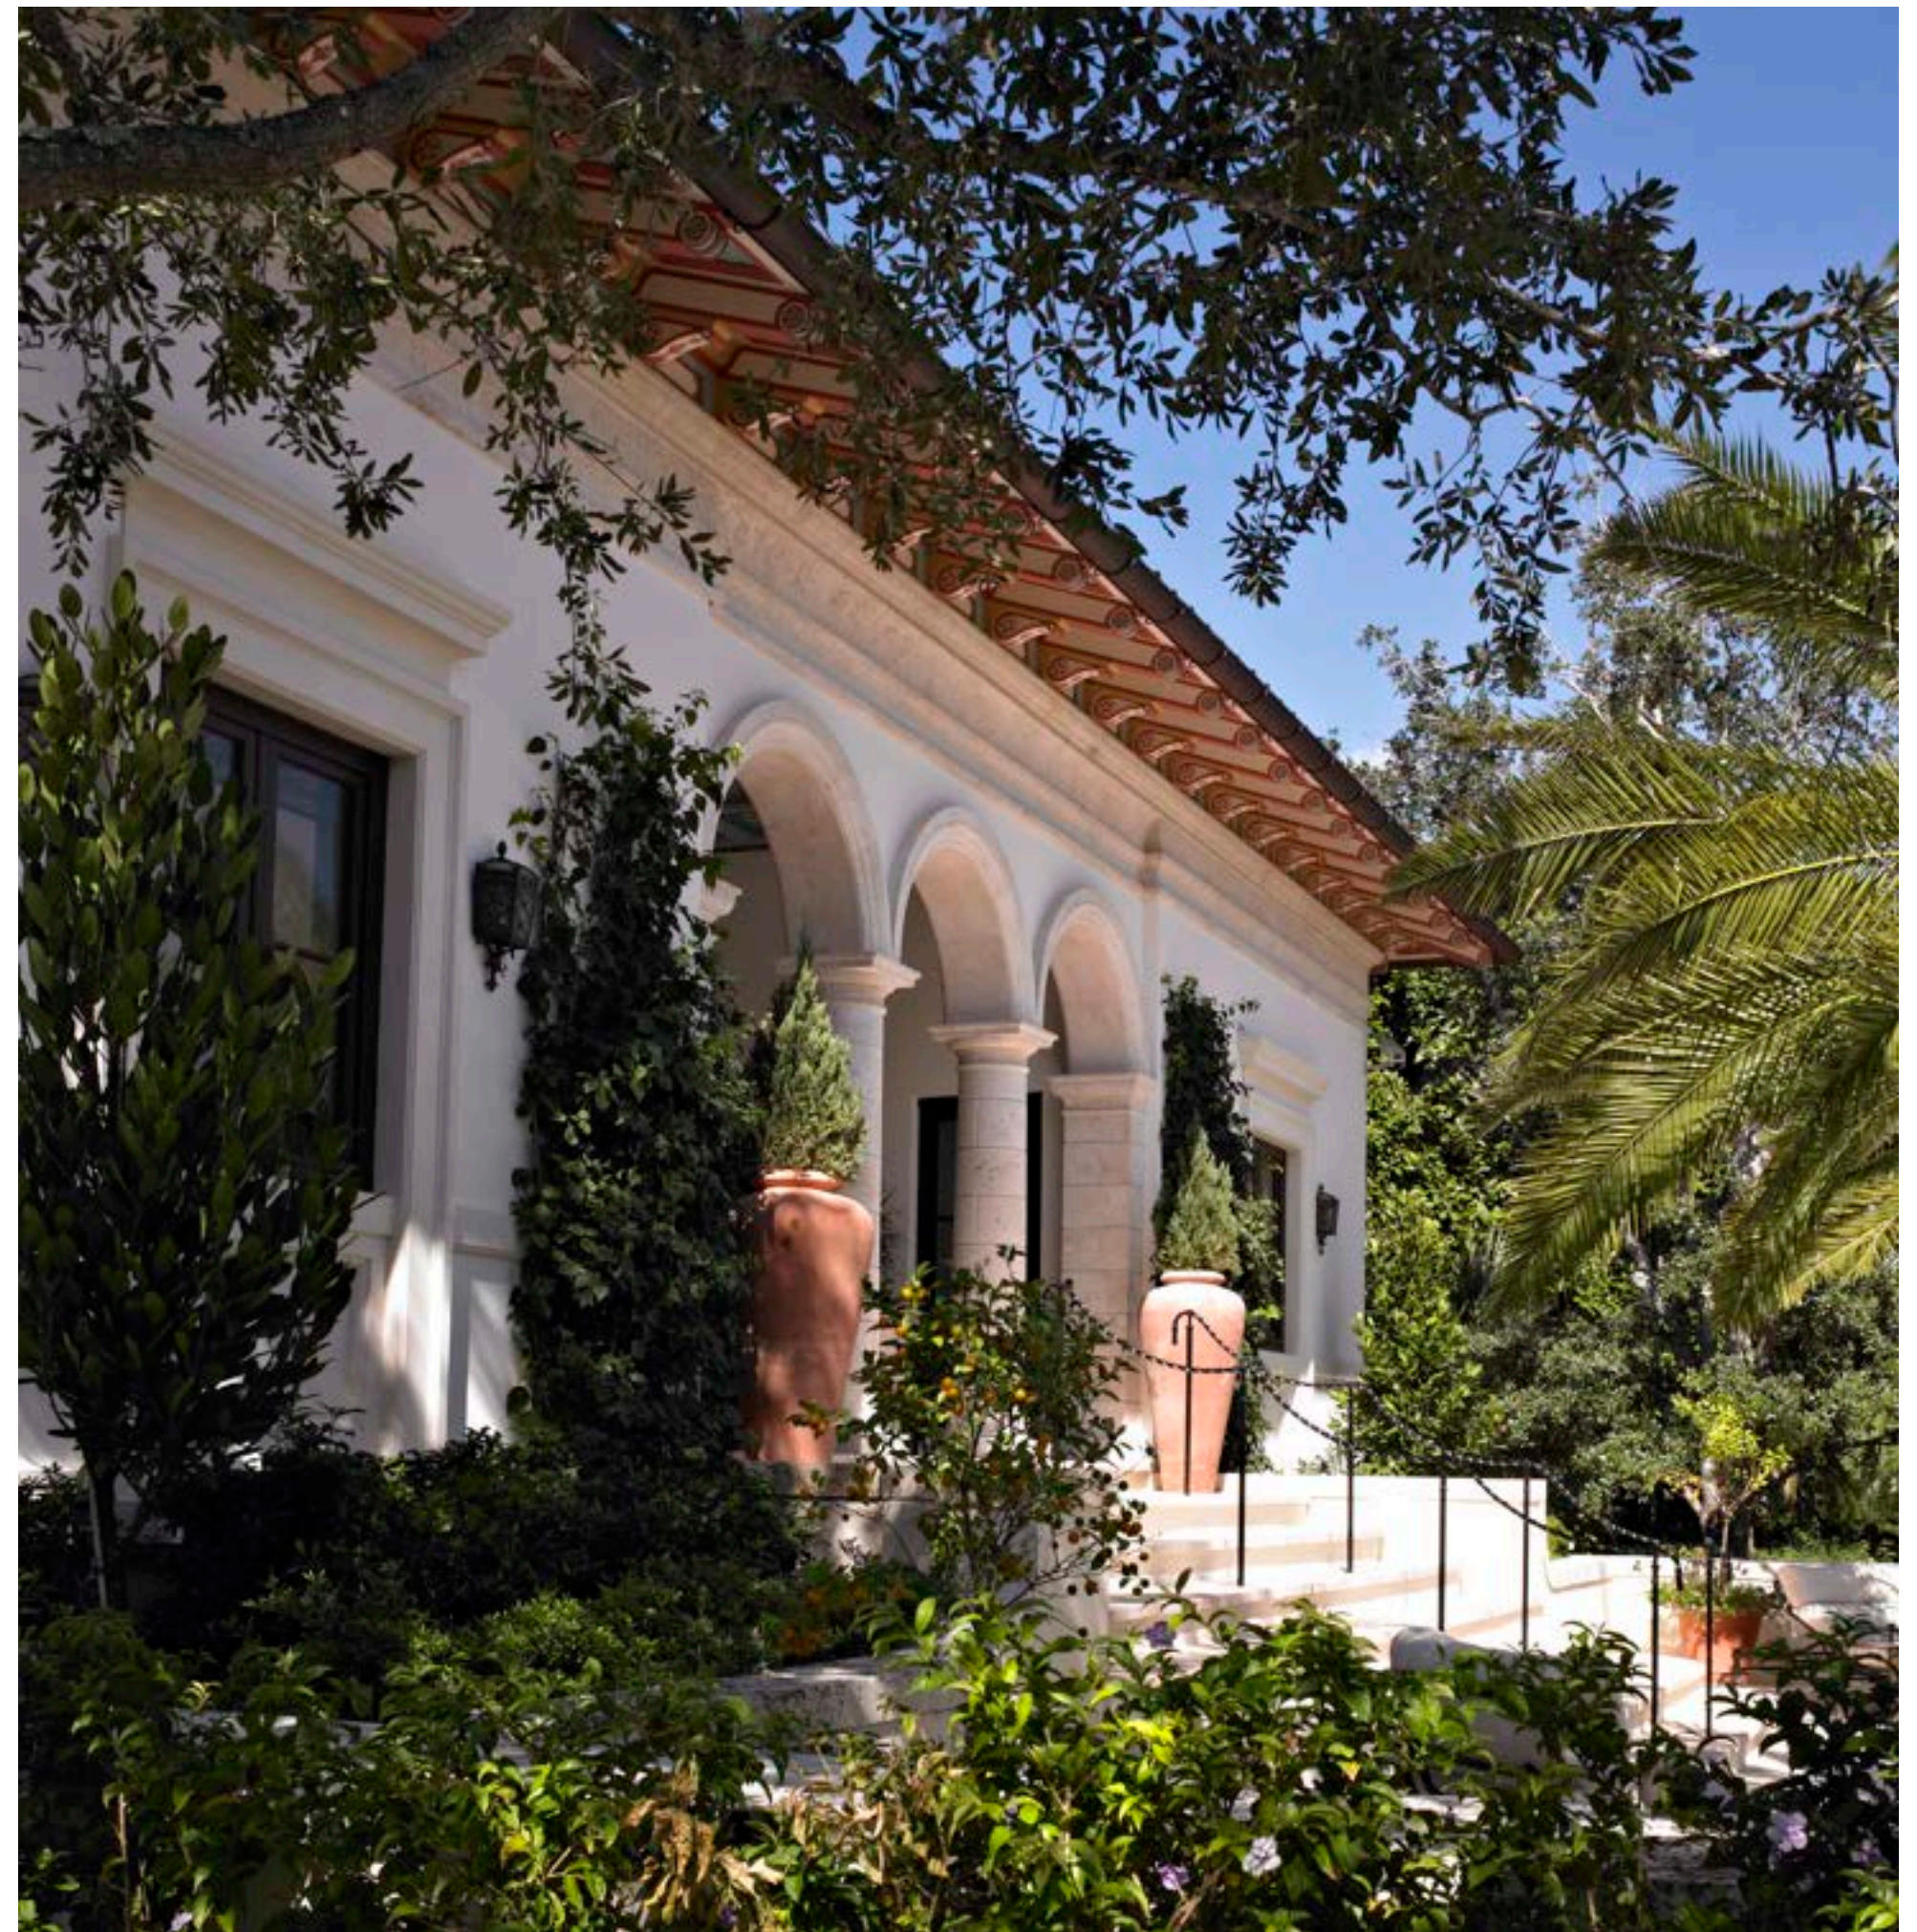

GERALD BUXBAUM

At Piedras International, we're committed to offering our clients the best materials the world has to offer. We carry exclusive natural stones, imported from Spain, Italy, France, Greece, Portugal, Israel and the Dominican Republic. With such high-quality materials, it only makes sense that we work with expert architects, designers and contractors to ensure that client's visions are brought to life. Our team believes in luxury, and to us, that means delivering the highest quality materials, created by nature and meticulously crafted by our team to match your precise project specifications.

COMMUNICATION

We maintain constant communication with all our partners.
